

## ARASH SAFARI

FRONT-END DEVELOPER

### SUMMARY

Passionate and results-driven Front-End Developer with expertise in ReactJS, JavaScript, and TypeScript for building dynamic, responsive web applications. Experienced in collaborating with backend and frontend developers to enhance web applications and build next-generation frontend systems. Key achievements include contributing to the migration to React, TypeScript, and Material-UI (MUI) at Ecombooster, significantly enhancing performance, scalability, and UI consistency. At Persiana Software Group, I played a crucial role in developing a React-based web application, which increased user adoption by 12% and reduced resume processing.
